

Subject: Gillette Generator Enclosures – 2023 Florida Building Code, 8th Edition
Location: Florida
Date: 1/30/2025

To whom it may concern,

The subject plans (which include all models listed below) were previously calculated by myself to meet earlier versions of the Florida Building Code. These plans are also filed with the State of Florida Department of Business and Professional Regulation (DBPR) under the State modular building program. The changes in the code to the 2020 Florida Building code 7th Edition and the 2023 Florida Building code 8th Edition, have no impacts on the design of the subject plans. Therefore, please allow this letter to serve as verification that the subject plans do meet the current 2023 Florida Building Code, 8th Edition.
